IT Services and Support for Law Firms

A team with the experience to keep your firm secure and efficient

FSA Consulting specializes in supporting law firms of all sizes. We understand the unique technology challenges you face and the critical need for strong security. We work with you to analyze, identify, and optimize your technology workflow.

If your firm already staffs an IT support specialist, we can provide "Tier 2" support. We can leverage your in-house support staff's institutional knowledge, provide them with our expert guidance, and share industry best practices.

Your Clients Rely on Your Expertise.
You can Rely on FSA Consulting.

Virtual Connection

Attorneys and staff are on the go and need to be able to access research and files in the office, in court, and when working from home. FSA Consulting can help select, implement, and maintain on-premise and cloud-based technologies to solve all of your remote working challenges.

Software & App Optimization

Law firms rely on vital apps and software to access research, precedent, files, billing, and client communications. FSA Consulting will ensure all of your platforms are integrated and secure.

Cybersecurity

We provide solutions to safeguard your devices from outside threats such as malware, ransomware, and spyware, and keep your information safe everywhere.

Risk Intelligence

Your firm's data is one of your most precious resources and needs strong protection. FSA consulting will conduct a high-level analysis of your data's exposure to risks as it pertains to compliance.

Backup & Data Recovery

Mistakes or computer failures can happen unexpectedly. Rely on FSA Consulting to set up regular automatic backups and data recovery processes when accidents, computer errors, and power outages happen.

Business Phones & Softphones

We provide Voice over Internet Protocol (VoIP) service and softphone solutions so your firm and clients will be able to rely on strong, secure phone systems any time, anywhere, with all of the features you need like interactive voice response and call recording.

24/7 IT Support

When your technology goes down, so does your business. FSA Consulting practically eliminates interruptions and stands ready to solve any issues that arise. Real people are here to answer questions in real time.

Let FSA Consulting handle your IT responsibilities so you can grow your business.
